## SUMMARY

Passionate and detail-oriented **Full Stack Developer** skilled in the **MERN stack, Java, and UI/UX design**. Adept at building scalable web applications, responsive user interfaces, and optimized backends. Experienced with **React.js, Node.js, Express.js, MongoDB, and Java-based APIs**, with additional proficiency in **WordPress**. Focused on creating seamless digital experiences that combine usability, performance, and accessibility.

## EDUCATION

<b>Kalpataru Institute of Technology</b> Bachelor of Engineering in Computer Science and Engineering CGPA: 7.5	2022 – 2026
<b>St. Mary's PU College</b> 12th Grade	2020 – 2022 Percentage: 94%
<b>Vidya Bharathi English School</b> 10th Grade	2019 – 2020 Percentage: 84%

## SKILLS

**Frontend:** React.js, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS, WordPress, UI/UX Design

**Backend:** Node.js, Express.js, Java, RESTful APIs, JWT Authentication

**Database:** MongoDB, MySQL

**Tools & Platforms:** Git, GitHub, VS Code, Postman, Netlify, Figma, Canva

**Concepts:** Responsive Design, Component Architecture, State Management, UX Research, Accessibility Design

## PROJECTS

<b>Personal Portfolio Website</b>	<i>ReactJS, Vite, HTML, CSS, JavaScript (2025)</i>
- Developed a modern, responsive portfolio with elegant UI/UX to showcase personal projects and achievements. - Optimized performance with Vite and implemented dark/light mode using React Hooks. - Deployed via GitHub Pages with version control and continuous integration.	
<b>Family Calendar System</b>	<i>ReactJS, Java, Spring Boot, MongoDB (Oct 2024)</i>
- Built a calendar dashboard with JWT-based authentication and role-based access. - Integrated Google Maps API and Twilio SMS for live event updates and reminders. - Combined ReactJS frontend with Spring Boot backend for real-time data syncing.	
<b>AI-Powered Travel Agency Platform</b>	<i>ReactJS, RASA AI, Spring Boot, MongoDB (Dec 2024)</i>
- Created an interactive booking dashboard with integrated AI chatbot for personalized travel suggestions. - Implemented user-specific dashboards with session persistence and live booking status. - Used MongoDB for data storage and Spring Boot for backend services.	
<b>WordPress Business Website</b>	<i>WordPress, Elementor, PHP, CSS (2025)</i>
- Designed a fully responsive company website using WordPress and Elementor Pro. - Focused on modern UI/UX practices with SEO-friendly layout and optimized load times. - Customized themes and integrated contact forms, analytics, and security plugins.	

## EXPERIENCE

<b>Full Stack Developer — Hackathons &amp; Academic Projects</b>	Aug 2023 – Present
- Developed end-to-end MERN applications with reusable component architecture. - Implemented authentication, API integration, and database operations using Node.js and MongoDB.	

- Designed responsive UI layouts and dashboards with accessibility-first design.
- Collaborated in team-based development and agile project delivery.

## **INTERNSHIP & HACKATHONS**

---

- Participated in national and college-level hackathons (2023–2025) focusing on MERN, Java, and design innovation.
- Contributed to developing full-stack applications with real-time data visualization and API integrations.

## **DECLARATION**

---

I hereby declare that the above information is true to the best of my knowledge and belief.
